Adopting a structured approach to examining images ensures that no detail is overlooked.

2. **Divide the image into sections:** Mentally segment the images into grids or zones to focus on smaller areas.
3. **Compare similar areas:** Look for differences within each section before moving on to the next.

Certain elements tend to be easier to spot when compared carefully.

1. **Color variations:** Differences in shades or hues are often the easiest to detect.

Most versions of uclick spot the difference include a hint system.
